Dhaka, Bangladesh

Portfolio: mafiulululu.github.io/

Objective

To begin my professional career in Software Quality Assurance or Web Development, where I can apply my academic project experience, testing knowledge, and programming skills. I hope to contribute to developing reliable, user-focused software while continuing to learn and grow professionally.

Education:

AMERICAN INTERNATIONAL UNIVERSITY-BANGLADESH (AIUB) Bachelor of Science in Computer Science and Engineering	EXPECTED JANUARY 2027
---	------------------------------

Govt. Ashek Mahmud College, Jamalpur Higher Secondary Certificate - Group: Science Board: Mymensingh	2020
--	-------------

Wisdom Laboratory School and College Secondary School Certificate - Group: Science Board: Dhaka	2018
---	-------------

Projects:

Smart Clinic Management System (ASP.NET Core MVC) ASP.NET Core MVC Database Integration PDF Generation	2026
--	-------------

- Developed a clinic management web application enabling patients to book appointments by specialty and department with real-time scheduling.
- Implemented an Admin Dashboard with CRUD operations for managing doctors, users, appointments, and related data.
- Developed automated PDF generation for payment receipts and appointment schedules to support operational efficiency.
- Applied the MVC architectural pattern to maintain a clean, scalable, and organized codebase.

My Mini Mart - Online Supermarket (ASP.NET Framework) ASP.NET Framework E-commerce Authentication Payment Flow	2025
--	-------------

- Built an e-commerce grocery platform supporting product browsing, cart management, and order processing.
- Integrated a multi-channel payment flow supporting mobile banking and card-based transactions.
- Designed a responsive product catalog with dynamic add-to-cart functionality for a smoother shopping experience.
- Implemented secure session management and user authentication using ASP.NET Framework back-end capabilities.

Pet Adoption Centre - Web Application PHP Web Application Database Integration Responsive UI	2025
--	-------------

- Developed a full-stack pet adoption and services platform where users can browse and adopt dogs, cats, rabbits, and tortoises.
- Integrated dedicated sections for pet accessories and pet healthcare services to create a broader pet-care portal.
- Designed a responsive and user-friendly interface to improve navigation and engagement across service sections.
- Implemented PHP-based server-side functionality for forms, user sessions, and database interactions.

Technical Skills:

Languages: C, C++, C#, Python, JavaScript, PHP

Web Technologies: HTML5, CSS3, ASP.NET Core MVC, ASP.NET Framework

Databases: MySQL, Oracle

Software Testing: Manual Testing, Test-Case Design, Functional Testing, Regression Testing, Bug Reporting

Developer Tools: Git, GitHub, Visual Studio, Jira, Trello

Concepts: Object-Oriented Programming (OOP), MVC Architecture, Database Design **Languages**

Spoken:

Bengali – Native

English - Professional Working Proficiency

Professional Development:

Currently working toward relevant certifications in Software Quality Assurance.

Target credential: ISTQB Foundation Level - Software Testing
